

Parts List and Diagram for Morse Kit # 5017KIT-P

This kit is required to replace the 3/16 alloy cinch chain (part # 180-P) and ratchet (part # 165-P) on Morse drum holders. The 3/16 chain is no longer available and has been replaced by a 9/32 alloy chain. The ratchet (part # 165-P) needs to be replaced in order to accommodate the larger diameter chain.

Replacement ratchet and chain **MUST** be installed together. Discard existing chain and ratchet.

ITEM	QTY.	PART #	DESCRIPTION
1	1	-	RATCHET, SADDLE, 9/32 CHAIN (NOT SOLD SEPARATELY)
